EDUCATION

Bachelor of IT (Computer Science) | Queensland University of Technology

MID 2018 – MID 2021

University has enabled me to work in teams and experience exciting new services, frameworks, and concepts that I would have never discovered, including but not limited to:

- Amazon AWS
- Microsoft Azure
- Cryptographic Algorithms
- Network Security
- Penetration Testing
- Machine Learning

RELEVANT WORK EXPERIENCE

Junior Software Engineer | CleverDial

JULY 2021 – CURRENT

CleverDial is a small startup company looking to develop and market web application call centre software specifically for charity fundraising. The web application, developed originally with HTML, CSS, and Javascript enables all call centre operators to raise urgently needed charity funds for participating charity organizations.

My duties within the company have been to maintain and apply bug fixes to legacy code, and to develop and test new features for upcoming web applications and cloud services.

Technologies used:

- JavaScript
- Typescript
- React
- Docker
- Node.js
- Google Cloud Platform
- Html
- CSS

WORK EXPERIENCE

Store/Cellar Attendant | Greenbank R.S.L

JANUARY 2019 – SEPTEMBER 2019

Cellar Attendant / Kitchen Hand | Kedron-Wavell Services Club

MAY 2017 – JANUARY 2019

SKILLS

- JavaScript
- Typescript
- React
- Node.js backend development
- SOLID principles
- Eagerness to learn
- Quick to understand concepts
- Great communication
